

OWM Expands Vessel Sampling Van Fleet

Due to recent growth and increased demand, OWM have invested in another sampling vehicle.

The van is based at the Aberdeen office and will serve all the Northern ports of Scotland and England.

With the new vehicle, OWM can offer an increased service level. This will also increase the availability of short notice sampling when urgent actions are required.

Great Yarmouth Becomes the Next OWM Hub

OWM has recently expanded its sampling capabilities by opening a hub in Great Yarmouth.

Great Yarmouth is a key port in the offshore industry, and OWM can now ensure all clients have the peace of mind that sampling can be carried out easily and at short notice. OWM's large network of laboratories allows for same day analysis.

If your vessel requires any form of sampling please contact: sampling@owmgroup.com

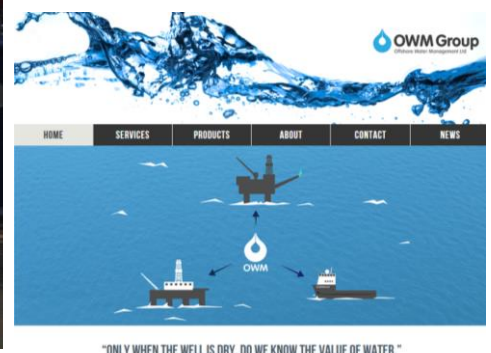

OWM launch new website!

We are excited to announce the launch of our new website. We have modernised and revamped all aspects of the old website.

There are technical documents containing our products and services, and vital information to ensure pot water does not impact operations. If you would like any more information, please get in contact

Please have a look and all feedback is welcomed.
